Torsion Arm

Rear · Driver Side · 15 in Long · 3.25 in Offset · Hardware Included · Aluminum · Black Anodized · Sprint Car

PART NUMBER

TIP2321

[View on PriceGuidePro >](#)

OVERVIEW

The torsion arm transfers wheel movement into the torsion bar, making it the link that determines how each corner of the car carries load. Any flex or slop here shows up as inconsistent bite that no amount of setup change will fix. Precise machining keeps the spline and pickup points where the setup sheet expects them, lap after lap.

Arms take direct hits in contact, so a spare set in the trailer is cheap protection against a lost feature.

Precision-engineered design and high-strength 2024 aluminum results in the most durable and reusable torsion arms available. Billet models are CNC-machined from a solid block of 2024 aluminum for added strength and stiffness. Left torsion bars measure 15 Inch from center of torsion hole to end, with a 3-1/4 Inch offset.

Right torsion arms measure 13-1/4 Inch from center of torsion hole to end, with a 5 Inch offset.

SPECIFICATIONS

Material	Aluminum
Finish	Black Anodized
Product Length	15 Inch
Offset	3.25 Inch
Location	Rear - Driver Side
Vehicle Type	Sprint Car
Hardware Included	Hardware
Sold As	Each

WHAT'S INCLUDED

✓ Hardware

SHIPPING & PACKAGING

Package	18.5 x 4.6 x 4.4 in
Ship Weight	3.52 lb
Country of Origin	USA
Vehicle Type	Car
