Torsion Stop Weight Adjuster Bolt

7/16-20 in Thread · 2.000 in Long · Hex Head · Hex Nut · Stainless · Natural · Torsion Stops · Sprint Car

PART NUMBER
TIP2388
View on PriceGuidePro ›

OVERVIEW

The adjuster bolt sets torsion bar preload, making it the fastener you turn to change how a corner carries weight. A bolt that mushrooms or seizes makes that adjustment unreliable. Relieved bolt ends resist mushrooming under repeated adjustment.

Grade 8 steel and titanium versions trade cost against weight.

Grade 8 Steel Adjuster Bolt 7/16 Inch-20 thread 2.000 Inch long
