Jacobs Ladder Strap

7 in Center to Center · Aluminum · Black Anodized · Sprint Car

PART NUMBER
TIP2421
View on PriceGuidePro ›

OVERVIEW

Jacob's Ladder straps are the links that locate the rear axle laterally, carrying the load that sets your rear roll center. A stretched or bent strap shifts that geometry and changes how the car takes off. Correct length is what puts the pickup point where the setup intends.

Straps take load every lap and are replaced as wear items.

Jacob's Ladder Strap, 7 Inch.
