Jacobs Ladder Bolt

3/8-24 in Thread · 1.875 in Long · Flat Head Allen Key · Titanium · Natural

PART NUMBER
TIP2427
View on PriceGuidePro ›

OVERVIEW

Jacob's Ladder bolts carry the load that locates the rear axle laterally, taking that force every lap. A bolt that shears or wears oval changes rear roll center with no warning. Correct diameter and length are what let the bolt carry the load and stay located.

Titanium options save weight at the rear of the car.

Titanium Allen-Head Ladder Strap Bolt Kit, 1-3/4 Inch.
