OVERVIEW

Hub seals are the only thing standing between your bearing grease and a track full of dirt, water, and rubber dust. When a seal fails, the bearing goes with it, usually taking the hub and your night with it. This inner single-lip seal is built for grease-packed front hubs and keeps contamination out while holding lubricant where the races need it.

Keeping spares in the trailer is cheap insurance against losing a hub during a race weekend.

Hub Seal, Single Lip (Grease). These black anodized direct-mount front hubs are forged from weight-saving 2024-T3 aluminum and CNC-machined to precise tolerances. Kits include left hub with rotor mount, right hub without rotor mount, bearings, seals, wheel studs, nuts, and threaded Ti22 screw-in dust caps.

SPECIFICATIONS

Material	**Neoprene**
Style	**Lip**
Thickness	**0.316 Inch**
Outside Diameter	**2.63 Inch**
Inside Diameter	**1.6 Inch**
Location	**Front - Inner**
Vehicle Type	**Sprint Car**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**4.85 × 3.45 × 0.6 in**
Ship Weight	**0.07 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
