King Pin

5/8-18 in Thread · 0.859 in Diameter · Steel · Natural · Sprint Front Spindles

PART NUMBER

TIP2864

[View on PriceGuidePro >](#)

OVERVIEW

The king pin is the pivot the spindle turns on, carrying steering, braking, and cornering loads at the very corner of the car. A bent or worn pin changes steering geometry and feel immediately. Hollow designs cut weight at the outer end of the suspension where mass matters most.

Correct diameter and length are what set your front end geometry.

Hollow Steel King Pin, Each.

SPECIFICATIONS

Material	Steel
Finish	Natural
Thread	5/8-18
Diameter	0.859 Inch Diameter
Sold As	Each
