Steering Box Mount

Top Mount · Aluminum · Black Anodized · Sprint Car

PART NUMBER
TIP3079
View on PriceGuidePro ›

OVERVIEW

The steering box mount holds the box rigidly to the chassis, so any flex here becomes lost motion the driver feels as slop. It also has to keep the box aligned with the drag link through every load cycle. Billet aluminum construction resists deflection while keeping weight low.

Different versions exist to clear fuel shutoff and pump configurations.

Steering box mounts are manufactured from American-made 2024 aluminum. Rigid design keeps steering gear in place. Mounts are offered in three versions.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Location	**Top Mount**
Vehicle Type	**Sprint Car**
Sold As	**Each**
