Fuel Pump Shutoff Bracket

Aluminum · Black Anodized · MPD Shutoff Valve · Ti22 Adjustable Top Steering Mount · Sprint Car

PART NUMBER
TIP3083
View on PriceGuidePro ›

OVERVIEW

This bracket mounts the fuel shutoff valve where the driver can reach it, which matters most in the moment you need to kill fuel flow. A shutoff the driver cannot find is no shutoff at all. Aluminum brackets locate the valve securely against vibration.

Correct fit for the valve style being used is what makes it work.

The Adjustable Power Steering Pump Mount is machined from 2024 aluminum. The slotted mount makes it easy to locate the power steering pump on different engine configurations.

SPECIFICATIONS

Material	**Aluminum**
Alloy Grade	**2024**
