Front Axle Assembly

1.5 in OD · 39.5 in Wide · 10 Degree Front Spindles · Chromoly · Chrome · Torsion Bar · Micro / Mini

PART NUMBER
TIP3502
View on PriceGuidePro ›

OVERVIEW

The front axle assembly ties both front wheels together and carries the spindles, shock mounts, and steering pickup points, making it the foundation the entire front setup is built on. Its width and built-in caster and camber angles determine how the car turns and how the front tires load. A straight, correctly angled axle is what lets a setup sheet mean anything.

Axles take direct impact in contact, so many teams keep a spare ready for a race weekend.

Manufactured from durable 1-1/2 Inch x 0.120 Inch wall 4130 chrome moly steel with 10 Degree front spindles, front axles are offered in torsion bar or coil-over configurations. Choose from chrome or black finished.

SPECIFICATIONS

Material	**Chromoly**
Finish	**Chrome**
Style	**Torsion Bar**
Product Width	**39.5 Inch**
Outside Diameter	**1.5 Inch**
Degree	**10 Degree Front Spindles**
Vehicle Type	**Micro / Mini**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**53.3 × 10.5 × 4.6 in**
Ship Weight	**9.41 lb**
