PART NUMBER
TIP3572
View on PriceGuidePro ›

OVERVIEW

Hub seals are the only thing between bearing grease and a track full of dirt, water, and rubber dust. When a seal fails the bearing goes with it, usually taking the hub too. Single lip designs suit grease packing while double lip versions handle oil.

Keeping spares in the trailer is cheap insurance against losing a hub mid-weekend.

Hub seal and O-ring kit for mini sprint hubs. O-rings included. Steel / rubber, natural finish, for grease or oil.

2.13 Inch O.D., 0.311 Inch thick.

SPECIFICATIONS

Finish	**Natural**
Thickness	**0.311 Inch**
Outside Diameter	**2.13 Inch**
Inside Diameter	**1.285 Inch, 1.75 Inch, 2.13 Inch**
