Suspension Tube

Swedged · 0.875 in OD · 20 in Long · 7/16-20 in Female Thread · Aluminum · Black Anodized · Radius Rod · Micro / Mini

PART NUMBER
TIP3702-20
View on PriceGuidePro ›

OVERVIEW

Suspension tubes locate the axle and control how the chassis moves through a corner, so their length and thread condition directly set your bite and roll steer. Every one is adjusted, removed, and reinstalled constantly through a season of setup changes. Swedged ends and clean threads let you make precise length changes without fighting seized hardware.

Keeping spare lengths on hand means a bent tube after contact does not end the night.

Rigid aluminum radius rods include 7/16 Inch threads. Choose from polished or black anodized finish.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Thread	**7/16-20 Female**
Head Style	**Swedged**
Product Length	**20 Inch**
Outside Diameter	**0.875 Inch**
