Suspension Tube

Swedged · 0.75 in OD · 14.5 in long · 3/8-24 in Female Thread · Aluminum · Polished · Micro / Mini

PART NUMBER
TIP3704-145
View on PriceGuidePro ›

OVERVIEW

Suspension tubes locate the axle and control how the chassis moves through a corner, so their length and thread condition directly set your bite and roll steer. Every one is adjusted, removed, and reinstalled constantly through a season of setup changes. Swedged ends and clean threads let you make precise length changes without fighting seized hardware.

Keeping spare lengths on hand means a bent tube after contact does not end the night.

Rigid aluminum radius rods include 7/16 Inch threads. Choose from polished or black anodized finish.

SPECIFICATIONS
