Suspension Tube

Swedged · 0.875 in OD · 21 in Long · 7/16-20 in Female Thread · Aluminum · Polished · Radius Rod · Micro / Mini

PART NUMBER
TIP3706-21
View on PriceGuidePro >

OVERVIEW

Suspension tubes locate the axle and control how the chassis moves through a corner, so their length and thread condition directly set your bite and roll steer. Every one is adjusted, removed, and reinstalled constantly through a season of setup changes. Swedged ends and clean threads let you make precise length changes without fighting seized hardware.

Keeping spare lengths on hand means a bent tube after contact does not end the night.

Rigid aluminum radius rods include 7/16 Inch threads. Choose from polished or black anodized finish.

SPECIFICATIONS

Material	Aluminum
Finish	Polished
Color	Silver
Thread	7/16-20 Female
Head Style	Swedged
Product Length	21 Inch
Outside Diameter	0.875 Inch
Vehicle Type	Micro / Mini
