Rod End

Spherical · 3/8 in Bore · 3/8-24 in Left Hand Male Thread · Steel Ball · Steel · Nickel Plated

PART NUMBER
TIP3751
View on PriceGuidePro ›

OVERVIEW

Rod ends are the pivot at every end of every suspension and steering link, which makes them the most numerous wear point on the car. A worn rod end introduces slop that shows up as vague steering and inconsistent bite. Nylon-insert designs hold tolerance longer than bare metal-on-metal under the constant reversals a dirt car sees.

These are consumables, so most teams replace them on a schedule rather than waiting for failure.

Choose from a variety of popular rod ends. Rod ends feature nylon inserts for added durability.

SPECIFICATIONS

Material	**Steel**
Finish	**Nickel Plated**
Color	**Silver**
Thread	**3/8-24 Male**
Thread Direction	**Left Hand**
Style	**Spherical**
Bore	**3/8 Inch**
