Wing Mount

Top Wing Tree · 25 in Wide · 11 in Tall · 0.625 in OD · Sliders Included · Chromoly · Chrome · Micro / Mini

PART NUMBER
TIP3770
View on PriceGuidePro ›

OVERVIEW

The wing mount, or top tree, holds the top wing and sets its angle and height, making it the anchor for the largest aero device on the car. Adjustment range here is how a team dials in downforce for the track. Multiple adjustment holes let you change angle without fabricating parts, and included sliders make the change quick.

Mount rigidity is what keeps the wing at the angle you set under full load.

Featuring up to 6 Inch of adjustment through use of 1 Inch adjustment holes, Top Wing Trees are 25 Inch wide x 11 Inch high with a 5/8 Inch upright diameter and 0.050 Inch upright wall thickness. Constructed from 4130 chrome moly steel, top wing trees are complete with 3/8 Inch wing slider mount. Offered in chrome plated or black.

SPECIFICATIONS

Material	**Chromoly**
Finish	**Chrome**
Product Width	**25 Inch**
Product Height	**11 Inch**
