Wing Post

Top · Slider · 14 to 21 in Long · Adjustable · Chromoly · Black Powder Coat · Micro / Mini

PART NUMBER

TIP3776

[View on PriceGuidePro >](#)

OVERVIEW

Wing posts carry all the downforce the wing generates and feed it into the chassis, working under constant load while taking whatever debris gets past the rock screen. A bent post changes wing angle mid-race and quietly costs you bite. Correct length and offset put the wing where the setup intends, and a rigid post keeps it there.

Posts are a known damage item in contact, so most teams keep replacements ready.

Top wing manual slider has 1 Inch adjustment holes and offers up to 7 Inch of adjustment for 14 Inch to 21 Inch length. Constructed from 3/4 Inch Diameter x 0.050 Inch wall 4130 chrome moly, unit is complete less adjuster pins. Offered in chrome or black.
