Wing Post

Front · Chassis to Sideboard · Chromoly · Black Powder Coat · Micro / Mini

PART NUMBER
TIP3791
View on PriceGuidePro ›

OVERVIEW

Wing posts carry all the downforce the wing generates and feed it into the chassis, working under constant load while taking whatever debris gets past the rock screen. A bent post changes wing angle mid-race and quietly costs you bite. Correct length and offset put the wing where the setup intends, and a rigid post keeps it there.

Posts are a known damage item in contact, so most teams keep replacements ready.

Outboard nose wing post, black. Front wing post, chassis to sideboard, chromoly with a black Powdercoat finish. For 600 micro / mini sprint.

Sold each.
