OVERVIEW

The drive chain transmits every bit of engine torque to the rear axle on a micro or mini sprint, so a stretched or broken chain ends the night immediately. Running the correct length and pitch keeps the sprockets aligned and the tensioner working in its intended range. This 130-link 520 pitch chain is built for the loads a 600 makes and ships with a master link so it is ready to install.

Chains are consumables, so keeping a fresh one on the shelf is standard practice.

Chain, 130 Link, 520 Pitch, Steel with Gold-Tone Finish, Includes Master Link.
