Brake and Sprocket Hub

1-3/4 in Axle · 5/16 in Mounting Holes · Micro / Mini · Aluminum · Black Anodized

PART NUMBER
TIP3920
View on PriceGuidePro ›

OVERVIEW

This hub carries both the rear sprocket and the brake rotor on a micro or mini sprint axle, transferring drive torque in and braking torque out. A hub that flexes or wears lets both components move, damaging each. Machined aluminum with correct mounting holes keeps everything located while holding weight down.

Correct axle diameter is what makes the hub fit.

Rear sprocket or brake rotor hub for 1-3/4 Inch axle. 5/16 Inch mounting holes, aluminum with a black Powdercoat finish. For 600 micro / mini sprint.

Sold each.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Fits Tube Or Axle	**1-3/4 Inch Axle**
Vehicle Type	**Micro / Mini**
Sold As	**Each**
