Trailing Arm

Rear · Driver Side · Tubular · 17.5 in Long · Adjustable · Chromoly · Black Powder Coat · Panhard Style · Micro / Mini

PART NUMBER

TIP3972

[View on PriceGuidePro >](#)

OVERVIEW

Trailing arms locate the rear axle fore and aft, controlling how the rear of the car reacts under acceleration and braking. Length and adjustment range here directly affect forward bite. Adjustable designs let you make that change without swapping parts.

Chromoly construction resists the bending loads a rutted track applies.

Left-Side, 17-1/2 Inch Long, 5-1/4 Inch Top-to-Bottom Spread, (2) 7/16 Inch LH Rod Ends Front, (2) 7/16 Inch RH Rod Ends Rear, black. Durable, 4130 chrome moly panhard wishbones feature a custom rod length adjuster in the front to allow adjustment without the need for removal. Includes rod ends.

Choose from chrome or black finish.
