Pedal Lever

16-3/4 in Long · 1 in OD · 5-1/4 in Wide Pedal · 1 in Rise · Titanium · Natural · Sprint Car

PART NUMBER
TIP4000
View on PriceGuidePro ›

OVERVIEW

The pedal lever sets the mechanical ratio between the driver's foot and the master cylinder, which determines pedal feel and effort. A lever that flexes gives a spongy pedal regardless of the hydraulics. Titanium and chromoly options trade weight against cost at a high-load location.

Raised rail versions match different chassis configurations.

Ti22 Brake Pedals are offered for 0 Inch and 1 Inch raised rail cars. Both titanium and chromoly options are offered. Brake pedal levers are 5-1/4 Inch wide.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Product Length	**16-3/4 Inch**
Product Width	**5-1/4 Inch**
Outside Diameter	**1 Inch**
Vehicle Type	**Sprint Car**
Sold As	**Each**
