Rock Screen

27 x 9 in · 2 in Wide Slots · Titanium · Tall Chassis · Sprint Car

PART NUMBER
TIP4022
View on PriceGuidePro ›

OVERVIEW

A rock screen is the driver's windshield, taking the direct hit from every clod and stone thrown by the car ahead. Weight matters here because the screen sits high and forward where mass affects how the car reacts, and titanium rod delivers the strength to stop debris at a fraction of the mass of steel. This tall cage version is sized at 27 x 9 Inch with 2 Inch slots to fit taller chassis while preserving forward visibility.

It is a safety part first, so build quality is not the place to economize.

Constructed of lightweight titanium rod, Ti22's Rock Screen provides dependable protection from rocks and other debris.

SPECIFICATIONS

Material	**Titanium**
Style	**Tall Chassis, 2 Inch Wide Slots**
Product Width	**2 Inch**
Overall Dimensions	**27 x 9 Inch**
Vehicle Type	**Sprint Car**
Sold As	**Each**

SHIPPING & PACKAGING
