Brake Rotor Adapter

Inboard · 2.910 x 46 Spline Axle Mount to 8 x 7.000 in Rotor Bolt Pattern · Aluminum · Black Anodized

PART NUMBER
TIP4025
View on PriceGuidePro ›

OVERVIEW

The rotor adapter mounts the brake rotor to a splined axle, transferring braking torque into the driveline. A worn or flexing adapter lets the rotor move, which wears both parts quickly. Billet aluminum construction carries the load while keeping unsprung weight down.

Correct spline count and bolt pattern are what make it fit.

Lightweight inboard brake clamp is made from 7075 aluminum. 8 x 7 Inch rotor bolt pattern. Kit comes complete with (8) 5/16 Inch-18 bolts and floating T-nuts.

SPECIFICATIONS

Material	**Aluminum**
Alloy Grade	**7075**
Finish	**Black Anodized**
Bolt Pattern	**2.910 x 46 Inch, 8 x 7.000 Inch**
Location	**Inboard**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**11 × 10 × 2.4 in**
Ship Weight	**2.06 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
