Pedal Lever

Frame Mount · 11 in Long · 1/2 in OD · 4 in Wide Pedal · Titanium · Natural · Sprint Car

PART NUMBER
TIP4105
View on PriceGuidePro ›

OVERVIEW

The pedal lever sets the mechanical ratio between the driver's foot and the master cylinder, which determines pedal feel and effort. A lever that flexes gives a spongy pedal regardless of the hydraulics. Titanium and chromoly options trade weight against cost at a high-load location.

Raised rail versions match different chassis configurations.

Ti22 Brake Pedals are offered for 0 Inch and 1 Inch raised rail cars. Both titanium and chromoly options are offered. Brake pedal levers are 5-1/4 Inch wide.
