Tire Pressure Relief Valve

Replacement · Aluminum · Black Anodized · Automatic Tire Pressure Relief Kits

PART NUMBER
TIP4417
View on PriceGuidePro ›

OVERVIEW

Tire pressure relief valves and wheel disconnects let you check and adjust pressure without fighting for access behind a beadlock ring. Stagger changes as tires heat and cool, so quick pressure adjustment directly affects how the car turns. Working with pneumatic bleeders gives consistent, repeatable settings.

Faster pressure checks free up time for everything else in the pit box.

Bleeder Hose End, Aluminum.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Style	**Replacement**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**3.95 × 2.4 × 0.7 in**
Ship Weight	**0.03 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
