Mud Cover

Splined · Inner · Right Rear · Aluminum · Black Anodized · 14-1/4 in Wheels

PART NUMBER
TIP4460
View on PriceGuidePro ›

OVERVIEW

Mud covers keep mud out of the wheel, which protects both stagger and the rotating balance of the tire. A packed wheel changes how the car turns and can throw enough mud to unbalance itself. Correct diameter for the wheel is what makes the cover seal and stay on.

Covers are damaged in contact and treated as consumables.

The new splined black anodized aluminum inner wheel cover is designed specifically for sprint cars and fits a 15 Inch diameter wheel. 5/16 Inch-18 x 1 Inch long hex-head bolts for added weight savings.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Head Style	**Splined**
Wheel Size	**14-1/4 Inch Wheels**
Location	**Inner**
Sold As	**Each**
