Universal Joint

1310 Series · 1-1/16 in Cap · 3-7/32 in Across · Steel · Natural

PART NUMBER
TIP4734
View on PriceGuidePro ›

OVERVIEW

The universal joint allows driveline angle while transmitting engine torque, absorbing every shock load wheelspin and gear change produce. A worn joint introduces vibration and eventually fails, taking other driveline parts with it. Premium joints with correct cap size handle the loads open wheel racing generates.

Joints are wear items inspected at every teardown.

Universal Joint, 1310 Series, 1-1/16 Inch Cap, 3-7/32 Inch Across, Steel, Natural. Sold each.
