Drive Shaft

Hollow · 32 in Long · 16/10 Spline · Steel · Natural · Sprint Car

PART NUMBER
TIP4752
View on PriceGuidePro ›

OVERVIEW

The drive shaft transmits engine torque from the U-joint assembly to the rear axle, carrying every shock load a dirt track puts into the driveline. A twisted or failed shaft ends the night and can damage the tube. Hollow steel construction gives the torsional strength needed while removing weight from the center of the car.

Correct length and spline count are what make it fit your combination.

Drive Shaft, 32 Inch, 10-16 spline, hollow steel.

SPECIFICATIONS

Material	**Steel**
Finish	**Natural**
Style	**Hollow**
Product Length	**32 Inch**
Spline	**16/10 Spline**
Vehicle Type	**Sprint Car**
Sold As	**Each**
