OVERVIEW

Fittings connect fuel, brake, and coolant lines while sealing against pressure and vibration, so a single weeping fitting can end a night. Correct AN sizing and thread type are what make a leak-free joint without over-tightening. Aluminum bodies keep weight down where dozens of connections add up.

Keeping common sizes in the trailer means a damaged line gets repaired instead of parking the car.

Straight adapter fitting, 5/8-18 Inch female to 3/8 Inch NPT male, for mechanical temperature gauges. Aluminum, black anodized. Sold each.

Aluminum adapters are an upgrade over brass and feature a longer length for use in tight spaces.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Black Anodized**
Style	**Straight**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**4.15 × 2.3 × 1.1 in**
