Fuel Cell Filler Plate

Positive Lock Cap · Flat Mount · 12-Bolt Flange Vent · Aluminum · Carbon Fiber Look

PART NUMBER

TIP5230

[View on PriceGuidePro >](#)

OVERVIEW

The filler plate is the interface between fuel cell and cap, providing the sealed opening you fill through. A leaking plate lets fuel and vapor escape into the car. Correct bolt pattern and vent configuration are what make the assembly seal.

Aluminum construction resists methanol without degrading.

Fuel cell filler plate with positive lock cap, flat mount. 12-bolt flange vent design, aluminum with a carbon fiber look finish and dual 4 AN to 6 AN female inlets. Sold each.

SPECIFICATIONS

Material	Aluminum
Mount Type	Flat Mount
Sold As	Each
