Frame Stand and Dolly

Steel · Black Powder Coat · Sprint Chassis

PART NUMBER
TIP5410
View on PriceGuidePro ›

OVERVIEW

A frame stand and dolly set both supports the chassis at working height and lets you roll it around the shop. Doing setup work on a car sitting on jack stands is slow and less accurate. Adjustable height replicates the ride height a setup sheet calls for, and casters make repositioning easy.

Sold as a set because supporting a chassis takes a matched pair.

Frame stand and dolly set is built with black Powdercoat steel, making it tough enough for shop duty, but nice enough for showroom use! Adjusts easily from 13 Inch to 19 Inch in height to put a sprint chassis at the ideal working height, while heavy-duty locking casters make it easy to move around the shop, even under heavy loads. High-density rubber pads help prevent scratches on lower frame rails.

Includes all pins, casters, and hardware needed for assembly. Sold in sets of two.

SPECIFICATIONS

Material	**Steel**
Finish	**Black Powdercoat**
Sold As	**Pair**

SHIPPING & PACKAGING

Package	**32 × 15 × 6 in**
Ship Weight	**52.42 lb**
