Frame Stand Caster

1/2 in Studs • Locking • 3 in Wheels • Plastic / Steel • Black / Zinc Plated

PART NUMBER

TIP5420

[View on PriceGuidePro >](#)

OVERVIEW

Casters let a loaded frame stand roll so the car can be repositioned without lifting. Moving a car by hand across a shop floor is slow and risks injury. Locking versions hold position while work happens.

Casters take the full weight of the car, so replacements are worth stocking.

Frame stand and dolly set is built with black Powdercoat steel, making it tough enough for shop duty, but nice enough for showroom use! Adjusts easily from 13 Inch to 19 Inch in height to put a sprint chassis at the ideal working height, while heavy-duty locking casters make it easy to move around the shop, even under heavy loads. High-density rubber pads help prevent scratches on lower frame rails.

Includes all pins, casters, and hardware needed for assembly. Sold in sets of two.

SPECIFICATIONS

Material	Plastic / Steel
Finish	Black / Zinc Plated
Style	Locking
Wheel Size	3 Inch Wheels
Sold As	Each

SHIPPING & PACKAGING

Package	10 × 6.5 × 3.4 in
