Tire Cover

120 in / 100 in Circumference · Cloth / Plastic · Black / Silver · Sprint Car

PART NUMBER
TIP5470
View on PriceGuidePro ›

OVERVIEW

Tire covers protect tires from UV and heat between races, which slows the aging that hardens rubber and costs grip. On a set of tires held for a big race, that protection is worth real money. Fitted covers stay on in trailer transit.

Sets cover all four corners in one purchase.

Tire cover kit with right and left cover. Sprint car hood, tank, and tire covers.

SPECIFICATIONS

Material	**Cloth / Plastic**
