Fuel Filter Element

100 Micron · Stainless Element · Replacement · Ti22 Fuel Filters

PART NUMBER

TIP5529

[View on PriceGuidePro >](#)

OVERVIEW

The filter element is the actual media that catches debris before it reaches an injector, and it loads up with everything the fuel system picks up. A blocked element leans the engine, which gets expensive. Cleanable stainless elements let you inspect and reuse rather than buying a cartridge each time.

Micron rating determines what it catches, so matching the original is important.

Replacement Element for [TIP5528](#) Long Filter, 100-Micron.

SPECIFICATIONS

Style	Stainless Element, Replacement
Micron Rating	100 Micron
Fits Application	Ti22 Fuel Filters
Sold As	Each

SHIPPING & PACKAGING

Package	7 × 4.05 × 2.3 in
