Fuel Filter Bracket

Clamp-On · 1.25 in OD Tubes · 2 in Diameter · Aluminum · Black Anodized

PART NUMBER
TIP5544
View on PriceGuidePro ›

OVERVIEW

The filter bracket holds a fuel filter in place so plumbing lines do not carry its weight. An unsupported filter vibrates until a fitting cracks. Billet clamps grip the filter body without crushing it.

Correct diameter for your filter is what makes the clamp hold.

Fuel Filter Clamp. Designed to mount 2 Inch diameter filter on 1-1/4 Inch tube. Black anodized billet construction with countersunk Allen bolt for easy tightening.

SPECIFICATIONS

Material	**Aluminum**
