Multi-Purpose Cleaner

Sonic Cleaning Solution · 1 Gallon Jug

PART NUMBER

TIP5610

[View on PriceGuidePro >](#)

OVERVIEW

This cleaning solution breaks down the methanol residue, oil, and dirt that coat fuel system components, and it works in ultrasonic cleaners for parts you cannot scrub. Methanol leaves deposits that restrict passages if left in place. Cleaning injectors and fuel components properly is what keeps fuel delivery consistent.

Supplied in a gallon container for shop use.

Use with ultrasonic cleaners. It effectively breaks down dirt, oils, and works great for cleaning methanol residue from fuel system components. One-gallon container.
