Throttle Linkage

10 in Long Rod · 10-32 in Thread · Aluminum · Black Anodized

PART NUMBER

TIP5624

[View on PriceGuidePro >](#)

OVERVIEW

Throttle linkage translates pedal movement into injector barrel position, so its precision is what the driver feels as throttle response. Slop or binding here costs the fine control needed to get off a slick corner cleanly. Rod ends and bell cranks that move smoothly keep the relationship between foot and engine consistent.

Linkage components take vibration constantly, making periodic replacement normal.

Black anodized aluminum throttle rod with left- and right-hand 10-32 female threads. Rod end sold separately.

SPECIFICATIONS

Material	Aluminum
Finish	Black Anodized
Thread	10-32
Product Length	10 Inch
Sold As	Each

SHIPPING & PACKAGING

Package	10 × 0.5 × 0.5 in
Ship Weight	0.07 lb
Country of Origin	USA
Vehicle Type	Car
