Wing Post

Top · Roller · 12 in Long · Chromoly · Black Powder Coat · Sprint Car

PART NUMBER
TIP6019
View on PriceGuidePro ›

OVERVIEW

Wing posts carry all the downforce the wing generates and feed it into the chassis, working under constant load while taking whatever debris gets past the rock screen. A bent post changes wing angle mid-race and quietly costs you bite. Correct length and offset put the wing where the setup intends, and a rigid post keeps it there.

Posts are a known damage item in contact, so most teams keep replacements ready.

Top wing post roller, black steel. 12 Inch long chromoly with a black Powdercoat finish. Sold each.
