Wing Post

Front · Drivers Side · Chassis to Side Board · Adjustable · 12 in Long · 1 in OD · Chromoly · Black Powder Coat · Sprint Car

PART NUMBER
TIP6131
View on PriceGuidePro ›

OVERVIEW

Wing posts carry all the downforce the wing generates and feed it into the chassis, working under constant load while taking whatever debris gets past the rock screen. A bent post changes wing angle mid-race and quietly costs you bite. Correct length and offset put the wing where the setup intends, and a rigid post keeps it there.

Posts are a known damage item in contact, so most teams keep replacements ready.

The Adjustable Nose Wing Posts provide the flexibility to set your wing as needed without having to switch or rebend your current posts. The adjuster provides for an extra 3/4 Inch of adjustment. Adjustment bracket points toward front of car.

Sold individually.
