Wing Post Clamp

Aero · Nose · Torsion Tube Mount · Hardware Included · Aluminum · Black Powder Coat · Ti22 Wing Posts · Sprint Car

PART NUMBER
TIP6133
View on PriceGuidePro ›

OVERVIEW

Wing post clamps hold the nose wing posts to the torsion tubes, carrying all the downforce the front wing generates. A slipping clamp lets wing angle change mid-race and costs front bite. Aero-profile designs match the post shape while bolting securely to the tube.

Hardware is included, and clamps are replaced when contact bends them.

Aero Style Aluminum Nose Wing Front Post Clamps (for clamping nose wing post to the torsion tubes). Clamps securely to torsion tubes. Has aero-style I.D. for nose wing front post.

Bolts included. Angled perfectly to reach side panel of nose wing with posts. For use with our Aero Style Right and Left Nose Wing Posts.

Sold individually.
