OVERVIEW

Bumpers and nerf bars are the first thing to make contact in traffic, protecting wheels, tires, and chassis tubes from damage that would otherwise end a night. They have to absorb a hit and stay attached without transferring the load into the frame. Swedged ends drop into the chassis for a clean fit, and a straight replacement gets a car back out between races.

Anyone racing in traffic treats these as regularly replaced hardware.

Fabricated from 1 Inch O.D. stainless steel, 4130 chromoly, or aluminum. Bumpers and nerfs feature specially swedged ends to fit easily into the chassis.

SPECIFICATIONS

Material	**Aluminum**
Finish	**Natural**
Style	**Stacked**
Tube Size	**1 Inch**
Location	**Front**
Vehicle Type	**Sprint Car**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**21 × 9 × 6 in**
Ship Weight	**1.75 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
