OVERVIEW

Nerf bars keep other cars' tires off your wheels, which is the difference between a rub and a flip in close racing. They must take a hit and stay attached without folding into the tire. Swedged ends fit the chassis cleanly, and side-specific designs match the mounting points.

These earn their keep in traffic, so replacements are a routine purchase.

Nerf Bar, Driver Side, 3 Point, 1 Inch Tube, Long, Stainless, Natural, Sprint Car. Sold each.
