Fuel Cell Bracket

8 in Center to Center · Bolt-On · World of Outlaw Approved · Aluminum · Black Anodized · Sprint Car

PART NUMBER

TIP8000

[View on PriceGuidePro >](#)

OVERVIEW

Fuel cell brackets hold the cell in the chassis, carrying the weight of a full load of fuel through every impact and corner. A cell that shifts is both a handling problem and a serious safety risk. Approved bracket designs meet the specifications tech inspection checks.

Correct center-to-center spacing matches your chassis mounting points.

Six point tank mount, World Of Outlaw approved. Bolt-on fuel cell bracket, 8 Inch center to center. Aluminum, black anodized.

Sold each.
