Fuel Cell Mount

Bolt-On · Aluminum · Black Anodized · Upper · Tail Tank · Sprint Car

PART NUMBER

TIP8012

[View on PriceGuidePro >](#)

OVERVIEW

Fuel cell mounts anchor the cell to the chassis so a full load of fuel stays put through impacts and cornering loads. This is a safety part as much as a mounting part. Clamp-on and weld-on versions suit different chassis and rule packages.

Approved designs meet what tech inspection looks for.

Clamps feature an adjustable design to allow mounting virtually any brand of fuel tank. Lightweight, CNC-machined aluminum clamps mount to the tail tank bar and utilize recessed bolt heads to conceal and protect them from debris.

SPECIFICATIONS

Material	Aluminum
Finish	Black Anodized
Style	Bolt-On
Location	Upper
Vehicle Type	Sprint Car
Sold As	Pair

SHIPPING & PACKAGING

Package	6.4 × 3.95 × 1.4 in
Ship Weight	0.61 lb
Country of Origin	USA
Vehicle Type	Car
