Quick Turn Fastener Spring

3/4 in Long • 0.200 in Reach • Steel • Zinc Oxide

PART NUMBER

TIP8120-50

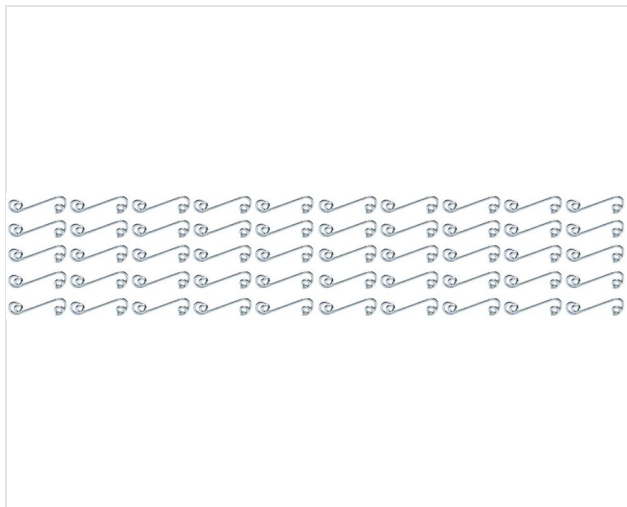

[View on PriceGuidePro >](#)

OVERVIEW

Quick turn springs provide the tension that holds a fastener locked in its bracket, and a weak spring lets a panel rattle loose. These are the failure point in most quick turn systems. Steel springs hold tension through the vibration and mud a race night applies.

Sold in packs because they are consumables replaced as they fatigue.

Steel Quick-Turn Springs. 50 Pk. Slot head.
