Quick Turn Mounting Bracket

Clamp-On · 0.063 in Thick · Requires 1-3/8 in Spring · 90 Degree Angle · Aluminum · Black Anodized · 1-1/4 in Tube

PART NUMBER
TIP8150
View on PriceGuidePro ›

OVERVIEW

Quick turn mounting brackets give a fastener something solid to grab on the chassis, letting body panels attach directly to tubing. Correct tube diameter is what makes the bracket clamp securely without crushing or slipping. Matching the bracket to your tube size keeps panels tight through a race.

These are installed once and replaced as chassis work requires.

Quick-Turn Mounting Bracket, 1-1/4 Inch Tubing. Slot head. Sold each.
