Rod End

Spherical · 1/2 in Bore · 5/8-18 in Right Hand Male Thread · Steel Ball · Aluminum · Black Anodized

PART NUMBER
TIP8250-10
View on PriceGuidePro >

OVERVIEW

Rod ends are the pivot at every end of every suspension and steering link, which makes them the most numerous wear point on the car. A worn rod end introduces slop that shows up as vague steering and inconsistent bite. Nylon-insert designs hold tolerance longer than bare metal-on-metal under the constant reversals a dirt car sees.

These are consumables, so most teams replace them on a schedule rather than waiting for failure.

Aluminum RH Male, Black, 10 Pk. 1/2 Inch I.D. x 5/8 Inch Thread. Rod ends can be purchased individually, or in 10 packs.

SPECIFICATIONS

Material	Aluminum
Finish	Black Anodized
Thread	5/8-18 Male
Thread Direction	Right Hand
Style	Spherical
Bore	1/2 Inch
Bearing Type	Steel Ball
Sold As	Set of 10
