Rod End

Spherical · 1/2 in Bore · 5/8-18 in Right Hand Male Thread · Steel Ball · Steel · Gold

PART NUMBER
TIP8266
View on PriceGuidePro ›

OVERVIEW

Rod ends are the pivot at every end of every suspension and steering link, which makes them the most numerous wear point on the car. A worn rod end introduces slop that shows up as vague steering and inconsistent bite. Nylon-insert designs hold tolerance longer than bare metal-on-metal under the constant reversals a dirt car sees.

These are consumables, so most teams replace them on a schedule rather than waiting for failure.

Gold Steel RH. 1/2 Inch I.D. x 5/8 Inch Thread. Rod ends can be purchased individually, or in 10 packs.

SPECIFICATIONS

Material	**Steel**
Finish	**Gold**
Thread	**5/8-18 Male**
Thread Direction	**Right Hand**
Style	**Spherical**
Bore	**1/2 Inch**
Bearing Type	**Steel Ball**
