Jam Nut

Thin OD · 5/8-18 in Left Hand Thread · 1/4 in Thick · Aluminum · Natural

PART NUMBER

TIP8271-10

[View on PriceGuidePro >](#)

OVERVIEW

Jam nuts lock rod ends and threaded links at the length you set, and every one of them is what stops a suspension adjustment from walking loose over a race. A single nut that backs off changes geometry with no warning. Correct thread and hand orientation matter because these run in matched pairs on adjustable links.

They are inexpensive consumables, so keeping packs on the shelf saves a scramble mid-weekend.

Jam nuts can be purchased in 4 packs or 10 packs.

SPECIFICATIONS

Material	Aluminum
Finish	Natural
Thread	5/8-18
Thread Direction	Left Hand
Style	Thin OD
Thickness	1/4 Inch
Outside Diameter	Thin
Sold As	Set of 10
