Bead Breaker

Steel · Black Powder Coat · 15 in Wheels

PART NUMBER
TIP8504
View on PriceGuidePro ›

OVERVIEW

A bead breaker separates the tire bead from the wheel, which is the hardest part of any tire change and a job done constantly through a race weekend. Doing it by hand risks damaging both bead and wheel. Purpose-built breakers apply force where it belongs, sized to the wheel diameter being worked.

Anything that shortens a tire change gives that time back to setup work.

For 15 Inch Wheel, Narrow Jaw, Steel, Black.

SPECIFICATIONS

Material	**Steel**
Finish	**Black Powdercoat**
Wheel Size	**15 Inch Wheels**
Sold As	**Each**
